

Backend endpoint:

JSONPlaceholder: <https://jsonplaceholder.typicode.com/users>

Method: GET

Acceptance Criteria(using Angular):

1. Get the user info
2. Display the user's name one by one first, for example:

Leanne Graham

Ervin Howell

Clementine Bauch

Patricia Lebsack

Chelsey Dietrich

Mrs. Dennis Schulist

Kurtis Weissnat

Nicholas Runolfsson

Glenna Reichert

Clementina DuBuque

3. The names are clickable, once clicked, other info of the user will be expanded below the name. For example,

Leanne Graham

name: Bret

email: Sincere@april.biz

address: Kulas Light Apt. 556, Gwenborough, 92998-3874

4. If the user's name is clicked again, this user's detailed info will be folded, others will remain unaffected.
